

After-School Enrichment Program

At Monterey Ridge

February 2010

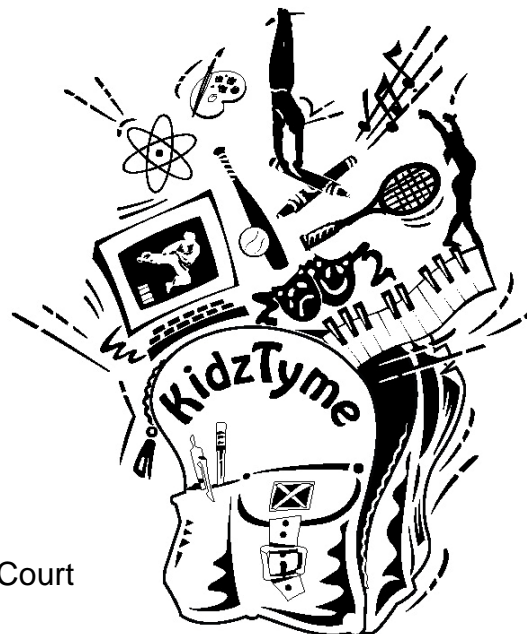

This program is designed to:

- ★ enhance and enrich students' lives
- ★ expand and extend educational opportunities
- ★ constructively channel students' energies, and provide meaningful activities for their free time.

Questions: call Virginia Valente at 858-485-0481.

Mail form and check(s) to:

KIDZTYME – M.O.
16624 Santa Mariana Court
San Diego, CA 92127

Confirmation notices will be mailed to your home just before classes begin.

Registration Deadline: postmarked on or before January 28, 2010

Class Descriptions

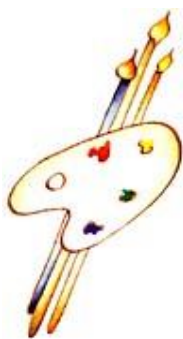

ABRAKADOODLE Grades K-5 Experiment with real artists' materials, including watercolors, paints, pastels, modeling compounds and more to create a new masterpiece each week! Children use a wide range of art materials to paint, print, sculpt, weave, and more in new multi-media, multicultural art lessons each session! Each class introduces a new artist or art technique and each child leaves class with their own unique work of art. Ignite imagination through carefully designed lessons that encourage creativity and foster skill development. All materials are included.

BASKETBALL Grades 2-5 The basketball program is for aspiring young players. Games, contests, and drills will be used to help young players develop their skills such as passing, dribbling, shooting, rebounding, and defending while learning how to work within the framework of a team. Students of all skill levels are welcome. The instructor has been coaching basketball for many years and enjoys sharing the passion for the sport with young students.

CLAY Grades K-5 This is a hand-building course using slab, coil and pinch methods. Projects include functional pieces such as mugs, bowls, banks; and sculpture pieces might include castles or animals. Pieces are both bisque and glaze fired. Pride and self-satisfaction are the byproducts of this class. Students may want to bring an old paint shirt to keep their clothes clean. A professional potter will instruct this class. New and returning students are welcome. Returning students will be challenged with new projects.

DRAWING – DOWN ON THE FARM Grades K-5 Join us for an impressive collection of drawing lessons of our farm animal friends (cows, horses, roosters, pigs, dogs, cats and more). Each class students will not only practice the Monart drawing method, they will learn exciting fun facts and a plethora of media techniques such as colored pencils, oil pastels, watercolor and more. A fact sheet will accompany a completed drawing each week. The Monart drawing program is an innovative, step-by-step drawing method that can teach all children how to draw -- regardless of artistic ability. Students will gain skills to express their creativity that will last a lifetime. All materials will be provided. Brand new subject matter will be introduced every week. Monart's philosophy is to give children a positive nurturing environment as they teach fundamental drawing techniques. You will see increased ability, self-confidence and self-esteem. In this guided drawing class students will experience the magic and joy of artistic expression in a comfortable and non-competitive environment. Drawing is a teachable skill and there is no right or wrong way to draw. Students will discover the thrill of seeing their drawings emerge as works of art!

LEGO Engineering Grades 2-5 All About Learning, Inc will be offering this enrichment class using LEGO Educational Division Materials and LEGO Technic elements. Now is a great time to introduce your students to the fun and exciting world of Lego® Engineering. Lego® Engineering classes offer lessons for young engineers who are interested in exploring engineering processes in a fun and exciting environment. Lessons include: simple machines, structures and forces, levers, wheels and axles, gears and gear math, ratchets and drive trains, along with motorized systems. Students may outgrow their love of LEGOs (don't count on it), but this insight into physics will stay with them forever.

MANDARIN Grades K-5 Students will be introduced to Mandarin Chinese. Mandarin is the official teaching language of China. The goal of this class is to build a solid Chinese phonetic foundation. This program has been designed to be fun and highly interactive. Materials include games, songs, stories, poems, role-playing, and drama. Students will gain pronunciation skills, learn simple Chinese words and everyday greetings. While studying the language, students will learn about the fascinating culture and history of China. The YAK Academy will provide the instruction for this class. Students will be divided according to age and ability level.

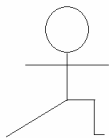

MUSICAL THEATRE WORKSHOP – “THE SOUND OF MUSIC!” Grades 2-5 Calling all performers!! Share the magic of Broadway musicals in this introductory program. Students will become familiar with the art of musical theatre and develop skills in stage movement/dance, vocal production for speaking/singing on stage, character development, and the creative rehearsal process. These skills will be applied in a workshop production of “The Sound of Music!” Our goal is to provide a foundation for future performers and to increase self confidence, self awareness, and creativity of our students, both individually and as part of a team. Students are expected to attend **all** classes listed on the schedule to avoid disruption in the production process. On the last day of this session, there will be a performance for family and friends. The instructor for this class has many years of teaching children’s theatre.

READING S.T.A.R.S. Grades K-2 Reading STARS (Sensory Training Approach to Reading and Spelling) is a program developed by speech-language pathologists to enhance the early reading and spelling skills of typically developing children in grades K-2nd. The curriculum is designed to develop children’s awareness of sounds and letters through multi-sensory channels. Children can expect fun, interactive games and activities! We will be reading and writing stories, playing outside games, singing songs, and creating art projects that will enhance reading, spelling, and writing skills. Through participation in this unique course, students are intrinsically motivated to read and will express enthusiasm to continue learning. The class has a 1:5 teacher to child ratio so children get the individual support and attention they need. A fun, non-threatening classroom environment is created to encourage learning through discovery. Returning students welcome! Don’t miss the opportunity to give your child a solid foundation for reading! Visit www.county-speech.com or contact County Speech at (619) 574-8181 for more information.

TENNIS Grades 1-5 Mike Rogers, a certified professional and member of the USPTA, has designed a course which will introduce the students to tennis. This proven course will teach the students efficient movements and allow them to play the game more effectively in the future. The rules, serve, forehand, backhand, volleys and the overhead smash will be covered. Classes will take place on the school’s blacktop using the volleyball courts and backboards. Racquets and balls are provided. Students should wear tennis shoes and comfortable clothing. New and returning students are welcome.

YOGA Grades K-5 Let your child explore yoga in a playful way. Stretch in downward dog, be still like a tree, roar like a lion! Learning the basics of yoga at a young age equips children with tools that will allow them to have more self-control and respect for others and the environment while improving coordination and flexibility. Yoga4youth is a program for children taught by Terri Rucker, a credentialed teacher with 23 years of yoga experience and certified in Mini Yogis and the Fine Art of Teaching Yoga to Children.

For the Safety of the Children... If a child is unfamiliar with the campus, parents should accompany their child or make arrangements to have someone direct their child to the proper location for the first meeting of a class. Supervision is provided only during class time. It is imperative that students are picked up immediately after a class. Parents are required to meet students at the class location and to sign them out. The school office closes at 4:00 p.m. and the office staff leaves at that time. Any parent who is more than five minutes late will be charged at the rate of \$1 per minute payable to the instructor at the time of pickup. The student will not be permitted to return to the program until the late fee is paid. The administration of this program is separate from the school and it would be appreciated if you did not phone the school with “reminder” requests. Thanks for your cooperation.

P O L I C I E S

- ◆ All instructors are professionals in their respective fields and have been fingerprinted, have tuberculosis clearance, and are CPR/ First Aid-certified.
- ◆ Transportation is not provided for the program.
- ◆ Supply costs are included in class fee unless noted.
- ◆ Times, length of sessions and locations all vary for each class. Read descriptions carefully and mark your calendars to make sure your student attends.
- ◆ School rules apply. Good behavior is expected. If a disciplinary problem develops, the student will be dropped from the class and no refund will be made.
- ◆ Class sizes are limited. Generally there are 6 to 20 students per class. Fees vary with class size and supply costs.
- ◆ There is a \$25 charge for returned checks.
- ◆ If a refund is necessary, there is a \$15 processing fee.
- ◆ Late applications will be processed subject to a \$15 late fee and class availability.
- ◆ Ideas and suggestions for new classes or comments concerning the program should be sent to:
Virginia Valente, Kidztime, 16624 Santa Mariana Court, San Diego, CA. 92127.

Classes are established based on sufficient enrollment. There are no refunds after class sizes are established as this may cause the class to fall below the minimum number of students required. Classes are filled on a first-come, first-served basis.

Dates and Times - February 2010

Day	#	Class	Room	Duration	Time	Fee
