

Interested in Gardening?

Now is the time to join the New
MRES Garden Club!!

Whether you're a complete novice or a Master Gardener, we need YOU to make this a fun and educational experience for our students and families!

The MRES Garden Club broke ground last month, with several families pitching in to prepare the beds and start a fencing project!

Come out and join the fun at our 2nd event on Saturday, February 27th from 9:00am – noon!

Dig in and get your hands dirty finishing the fencing and preparing the beds for spring planting! Meet us at our garden space, located in the 4S community gardens, across from the MRES parking lot.

Please email Julie Golic at Julie_golic@yahoo.com or Evi Haux at EAHaux@aol.com by Friday, February 26th if you plan on attending.

Families welcome! Don't forget your tools – battery powered drills will be especially handy!

Other ways to help us grow:

We are in need of seed donations, garden tools and soil amendments
